Company automatically receives and records information on our server logs from your browser including your IP address, cookie information, browser information, operating system, timestamps, the pages you request, and the actions and path you take on the Website
- Generally, our service automatically collects usage information, such as the numbers and frequency of visitors to our Website and how they use its various components. Company only uses this data in aggregate form, that is, as a statistical measure, and not in a manner that would identify you personally. This type of aggregate data enables us to figure out how customers use parts of the Website or services so that we can make the Website appealing to as many customers as possible, and improve those services. As part of this use of information, we may provide aggregate information to our partners about how our customers, collectively, use our Website or services. Again, Company never discloses aggregate information to a partner in a manner that would identify you personally.
